

Mineralogy-Petrology seminar – SoSe 2023

Location: L639

Time: Fridays 14:15 – 16:00

Date	Presenter	Title
12. May 2023		
19. May 2023	<i>Jo Moore</i>	That's me, will join you soon
25. May 2023	<i>Gina Rüdiger</i>	"The impact of fluid and mineral composition on experimental carbonate silicification"
26. May 2023		No seminar
02. Jun. 2023	<i>David Matzdorff</i> <i>Saskia Bläsing</i>	Quarternäre Chalcogenide für Tandemsolarzellen Amphibolitization of a gabbro
09. Jun. 2023	<i>Noemie Rivollier</i> <i>Iris Wannhoff</i>	Development of films with high barrier properties for the encapsulation of solar cells New insights about the (U?)HP Koralpe-Sauualpe-Pohorje Complex (Eastern Alps)
16. Jun. 2023	<i>Hans Vrijmoed</i>	How simple ternary fluid can produce at least 12 reaction sequences
23. Jun. 2023	<i>Xin Zhong</i>	Adula applied as a chronometric study
30. Jun. 2023	<i>Konstantin Huber</i>	Serpentinite dehydration as a multiple scale process
07. Jul. 2023 (12:00)	<i>Thomas Ferrand</i>	'Stresses and seismicity in lithospheric materials' 'Evidence for fractional crystallization in the damage zone of a seismic rupture'
14. Jul. 2023		
Happy end of Semester
